Laundry Farm
PO Box 481
West Long Branch, NJ 07764

Seer Farms Inc. is a New Jersey-based non-profit established in 2008 to intervene when families are in crisis by caring for their animals until they are able to reunite with them. The primary service provided is animal care for the animals however Seer Farms also partners with professionals like disaster relief agencies and advocates, real estate agents, social workers and others who can help the client reclaim their lives and ultimately their animals as well.

Seer Farms was founded to keep animals safe and families together. We are a social service organization that has, as its mission, enhancing the quality of life for families and their animal companions whose lives have been shattered due to natural disaster, homelessness, domestic abuse, catastrophic illness, military service and other major life crises by providing temporary custody of their animal companions until the family is able to reunite with their animals and client services that help the client resume self-sufficiency.

Without the aid that Laundry Farm has provided us, we would be unable to provide a clean and warm home for the animals that we provide a home for. Keeping the animals healthy and safe is a chief priority for the staff at Seer Farms and Laundry Farm offers us a highly valued and truly indispensable service. They are efficient, professional, and everything that we at Seer Farms need from such a service.

Sincerely,

Laura Pople
Executive Director
